

HTML - How to make a website

Lesson 1: Evaluating websites

Name: _____

Your task for this lesson is to visit some of your favourite websites! Sounds easy enough...but, as you are clicking around, you need to think carefully about what we have been discussing. What is it that makes these websites work so well? What do you like about them? What age group are they aimed at? Are there any ways they could be improved? Don't forget to have a look at the source code to see what's really going on behind the scenes.

Website 1

Website address:

What does this website do?

Who is the target audience?

What do you like about it?

How could it be improved?

Website 2

Website address:

What does this website do?

Who is the target audience?

What do you like about it?

How could it be improved?
